

**Northwest Prep Charter School
2021 Spring Academic Exhibition
&
Senior Project Exhibition
Thursday, April 22nd @ 6pm**

Academic Exhibition Driving Question:
How can we employ empathy and technology to bring hope?

Join us Thursday April 22nd @ 6pm for our Spring 2021 Academic Exhibition and Senior Project Exhibition. This year's event will be held on Zoom and on the new digital platform Topia. Selected seniors will be showcasing their individual senior project work while the rest of the school showcases elements of their work around empathy, technology, and hope.

Topia (pictured above) is the digital platform where students created the world that will host our academic exhibition.

During the event you will learn about students conducting empathy interviews with the goal of discovering what topics are most pressing to their community. You will view student news broadcasts and learn about students researching stories of people using technology, in big or small ways, to help solve the worry groups focused on. Lastly, you will navigate the student designed Topia platform, have conversations with students and guests, see the products students created, and experience an example of an innovative technology that is offering a way to build community, and through that- empathy and hope.
